WORK EXPERIENCE

Odoo Functional Consultant, Product Owner & Business Analyst

Ejad Altaqnia for Information Technology, Riyadh, Saudi Arabia | Aug 2023 – Present

- Lead full-cycle Odoo ERP implementations for new and existing clients, aligning delivery with business objectives, scope, and project timelines.
- Define and prioritize the product backlog, user stories, and product vision, acting as the primary liaison between technical teams and business stakeholders.
- Translate complex business needs into clear, actionable requirements through workshops and comprehensive gap analysis.
- Monitor sprints and manage the product lifecycle to ensure on-time delivery of high-quality solutions.
- Deliver end-user training and provide ongoing functional and technical support post go-live.

Senior Odoo Techno-Functional Consultant

TeleNoc IT Services & Solutions, Riyadh, Saudi Arabia | May 2022 – Jul 2023

- Delivered full-cycle Odoo ERP solutions across diverse sectors, producing system configuration and software modification specifications.
- Provided expert consulting, configuration, and support, improving system performance and user satisfaction.
- Conducted workshops and end-user training sessions, enabling smooth adoption of new ERP systems.

Project Manager

WAY FOR IST, Riyadh, Saudi Arabia | Oct 2021 – Apr 2022

- Managed Odoo development teams and project timelines across all phases, from proposal to execution and handover.
- Facilitated communication and alignment among stakeholders to keep projects on scope and on schedule.

Odoo Developer Lead

End to End, Khartoum, Sudan | Nov 2020 – Oct 2021

- Directed ERP implementations and technical strategy, coordinating team responsibilities to deliver projects successfully.

Odoo Techno-Functional Consultant

End to End, Khartoum, Sudan | Jan 2019 – Oct 2020

- Designed and implemented Odoo ERP systems across multiple business domains, analyzing client requirements and leading functional deployments.

Software Engineer

More Fix Solution, Khartoum, Sudan | Apr 2018 – Dec 2018

- Developed a university ERP system end to end, from requirements gathering through deployment.
